Can documents be edited on eBrief Ready platform?

Document Organisation · https://ebriefready.legalready.ai/knowledge/can-i-edit-documents-in-ebrief-ready/

eBrief Ready platform is not purposed for document editing.

The platform facilitates sharing documents among multiple parties, with the expectation that the integrity of these documents remains consistent. If pages were to be removed or altered, it could lead to complications.

If any documents need to be edited, this can be accomplished outside the platform. Once the necessary changes are completed, the user can re-upload the updated document and delete the older version.

The eBrief Ready system maintains a comprehensive audit trail, documenting all additions and deletions of documents.
