What’s the simplest way to share downloads with others?

FAQ · https://ebriefready.legalready.ai/knowledge/whats-the-simplest-way-to-share-downloads-with-others/

You can instantly share a link to a download with anyone, without the need for the recipient to have their own eBrief Ready account.

How to share a download

1. Open your Matter
2. Click **Downloads** under **Extras** in the left hand menu
3. Click **the three dots** and click **Sharing Link**

The **Create Sharing Link** window will open.

4. Enter an email in the **Enter an email** field and click the **Plus** icon
5. Click **Create**
6. Click the **Clipboard** to copy the generated link

Revoking access

If you no longer want people to have access to the download, click **Sharing Link** and then **Revoke**. Any link you have previously shared will no longer work.
